How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint Global has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When you hold the Frequency Disc on the area of pain, your body begins to 'resonate with the frequencies' that are programmed in the Frequency Disc. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Frequency Disc, the body returns to a balanced state. The body is able to protect and heal itself when it is in a state of perfect balance.

Testimonials

"The Frequency Disc will stick to the areas of aches and pains. When it's "suction grip" releases, the aches and pains are gone! I bring the Frequency Disc to bed with me." – Margee B.

"I put the Frequency Disc on my back, and it stuck like it was suctioned onto my back! That was at 3:00pm, and the pain was gone by 5:00pm! The Frequency Disc stuck there all through that night - I literally had to peel it off to take a shower the next morning, and I had absolutely no sign of sciatica!" - Lisa L.

"I've placed the Frequency Disc in my refrigerator, and it's keeping our food fresh for a longer time. I'll be purchasing additional products for my family!" – Deepa C.

"In this day and age when unsafe food handling is in the news, we never dine out without our Frequency Disc. We find it especially effective on taking "bitter" aftertastes away from coffee and wine." – Tim B., FL

"I was suffering from a pain in my wrist. I've never experienced this before, but from what I know about carpal tunnel, it seemed to match the symptoms. It was painful to type, and even when my hand was in a natural position, there was a dull pain. I started using the small Frequency Disc under my wrist when I used the mouse for my computer. It took about one day, and the pain continued to diminish until it eventually went away completely! Typing as much as I do, this discovery is a true blessing. Now I use the small Frequency Disc in that manner as a preventative measure." - Doreen Z., FL

"In March of 2009, an 8-day test was performed at a natural food store to determine the efficacy of using ZeroPoint Frequency Discs to increase the shelf life of fruits and vegetables.

Two pairs of organic bananas were selected from the same bunch. The two pairs were placed on the same metal shelf approximately 9 feet apart. One pair was placed directly on the shelf, and the other pair was placed on a ZeroPoint 8"

Frequency Disc. Progress photos were taken to document the progression of the ripening and spoilage processes. At the end of the eighth day, the bananas on the shelf were showing signs of significant aging and bruising. The bottom edges of the bananas were flattened, the fruit inside was bruised, and the peels were starting to rot. They were no longer edible.

The bananas on the Frequency Disc were also showing signs of aging, although much less than the other pair. The fruit inside was not bruised and was still well within the limit of being tasty and edible." - Marvin C.
