ZeroPoint Global Technical Data Sheet: Sirius Infinity Pointer

How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When you hold the Sirius Infinity Pointer on the area of pain, your body begins to 'resonate with the frequencies' that are programmed in the Sirius Infinity Pointer. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Sirius Infinity Pointer, the body returns to a balanced state. The body is able to protect and heal itself when it is in a state of perfect balance.

Testimonials

Sirius Infinity Pointer & Nosebleeds

"I had a nosebleed, and I circled the Sirius Infinity Pointer in my nostril for 15 seconds, and it stopped. Another day, I had a really bad nosebleed, and it stopped within one minute of using the Sirius Infinity Pointer. My husband used to have to help me stop them; now, they're under control!"
- Joanne, Canada

Sirius Infinity Pointer & Intestinal Surgery

"In mid-March 2012, I went to the emergency for a twisted intestine that required surgery. On the third day of my 8 - day stay, my husband brought me our Sirius Infinity Pointer, which I began using off and on (I moved the pointer slightly above and along the 10-11" incision and just above and around the entire abdomen). I wasn't sure if it was doing anything (I was on an IV with pain medication). However, the surgeon mentioned that the incision was looking very good and was healing well.

When I returned home, I used the Sirius Infinity Pointer in the same way, but more often. I noticed it was decreasing my need for as much pain medication. By the 4th day, I was completely off the medication, as the pointer was managing the pain. When I saw the surgeon for a follow-up 2 weeks later, she remarked how good the incision looked. On the second and last follow-up visit, the surgeon and I both remarked how small and flat the scar was (I have a tendency to build up scar tissue, so this was unusual). I am also happy to report, that the scar is not sensitive to the touch - something I have experienced in the past.

Thank you ZeroPoint Global for your amazing tools, and for empowering us in our own self-care!" - Sharon P., TX

Sirius Infinity Pointer & Knee, Ankle Pain

"I had a patient come to me who is an electrician. He's up and down ladders all the time, and he had very painful knees and ankles from all the activity, which had been bothering him for years. I used the Sirius Infinity Pointer for two minutes on each of his knees and each ankle. Right away, he was pain free. At his one-month follow-up appointment, he was still pain free.

The lasers I have used in the past would take me a few hours to treat those four joints, and I did it with the Sirius Infinity Pointer in eight minutes, and the results were better. I highly recommend the Sirius Infinity Pointer." - Dr. John, NV

Licensed Massage Therapist Loves Sirius Infinity Pointer

"As a Licensed Massage Therapist, I find the Sirius Infinity Pointer the most versatile and valuable tool I have. I keep it hanging on my belt loop so it is always conveniently handy. The Sirius Infinity Pointer saves me hand effort, as I use it as an extension of my hand on the whole body. It saves me time since it accelerates muscle balance, and gives the client more massage for their money. It also creates more rescheduled business!"

I can use the tool as a trigger point, by placing my thumb at the top side of the Sirius Infinity Pointer and not having to use nearly as much pressure to get relief. As one client stated on her problematic area, it was as if the muscle just melted away." - Brianna, OH
