Benefits

The Blueprint Frequencies of the Intention Disc clear toxic waveforms that disrupt how our cells communicate with our bodies. Often, stress and outside influences can be stored in our bodies. The Blueprint Frequencies of the Intention Disc help neutralize and balance our systems through detoxification.

For the best results, use the Intention Disc in combination with a ZeroPoint Global Pendant.

- Clears toxic waveforms in food, liquids, and personal care products we consume and use
- Balances the body and allows the mind-body complex to achieve harmony
- Minimizes the effects of stress and outside influences on our organs and internal systems

Blueprint Frequencies

ZeroPoint Global has identified specific frequencies found in healthy organs and systems. Using a 'Quantum Field Programming Generator', matching frequencies are infused into ZeroPoint Global products. These are called Blueprint Frequencies. Use them freely to bring your body into balance and achieve a state of overall wellness. ZPG has infused the Intention Disc with Blueprint Frequencies that support the following areas in the body:

4 Brain	4 Cartilage	2 Circulatory	14 Immune
3 Ingestion	2 Lymphatic	8 Organ	6 Respiratory
3 Skeletal	10 Symbolic

How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person wears or holds the ZeroPoint Intention Disc, their body begins to 'resonate with the frequencies' that are in the disc. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Intention Disc, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

Testimonials

Enthusiasm & Attitude Boost

"After reading about how others have responded emotionally to the Intention Disc, I began reflecting on my use of this disc. I wear my disc as a necklace every day to work. I work at a hospital which is rife with patient drama, nurse/doctor/staff conflicts and inter-office politics. It can be a very emotionally draining and contentious atmosphere in which to work. I have even been the target of a fair amount of (unwarranted) character assassination. As I said, after reading about the emotional aspects of wearing the Intention Disc, I began to realize how every day I've gone to work, somehow, even though I was initially feeling depressed, unmotivated or worried about what the day held and, except for a few of the worst days, I have been able to go in with enthusiasm and a smile on my face. I really do believe the Intention Disc helps me process my feelings and fortify me for the day. I do notice I feel stronger and more self-assured without there really being any other reasons for this confidence other than I am wearing the Disc." - Dakotah D., KS

Neck Pain Relief

"My first time holding the Intention Disc was indeed a "wake up call". I immediately felt a sensation in the back of my neck, rising up and over my head. Kind of like an 'energetic pop' followed by a feeling of relief and alignment. I had experienced a traumatic neck and back injury last year, causing my Atlas to be misaligned. I had a treatment a few years ago to align it, and I could tell it was out. What relief! In just a few moments, my highest intent for healing took place. I am truly grateful." - Pamela C., HI

Clearing Toxic Information from Cancer Diagnosis

"I used the Intention Disc with muscle testing on one of my clients to release her fear from the diagnosis of cancer. My client agreed to the traditional chemo and radiation treatment and had tremendous fear wrapped around the whole process. The process of using the Intention Disc removed the emotional component, so she could focus on the healing. Much less stress... She also used the Intention Disc on the site of the first treatment, relieving the memory. The Green Naturalaser was then used on the big 4 as well as the site of chemo. Her whole being shifted and relaxed." - Practitioner Robyn G., FL

Anxiety

"I have been unemployed for one year, and the financial stress, anxiety and fear of the unknown has been increasing by the day. I have a difficult time sleeping - tossing and turning - I am lucky if, at best, I get 2 or 3 hours of broken sleep. I discovered on the recent Current a new way to explore my Intention Disc to clear toxic frequencies from my subconscious mind. We know that water stores the memory of negative messages, and since the human body is approximately 80% water - give or take - it stands to reason that our body's cells and tissues and organs also store the memory of negative messages. Last night, I went to bed with my Intention Disc in hand, and every time my sleep was disturbed and I was startled awake in a panic by a negative thought creeping into my subconscious, I asked for my Intention Disc to release all incoherent toxic frequencies that were not conducive to my overall physical and emotional health and well being, and I returned to sleep like a baby. With thanks, gratitude and appreciation for the info on the Current and the testimonials on the Product Training calls for sharing new ways to use the ZeroPoint tools. Like this, our collective consciousness is raised and this allows for us all to live our best life each day! God Bless all of you folks at ZeroPoint Global!" - Margee B., FL

Pet Trauma

"I used the ZeroPoint Intention Disc on Minnie, a tiny Daschund that came from a physically abusive home. The dog would squeal and bark every time anyone would walk anywhere near her. I set the intention to remove any negative memories or images from the dog and held the Intention Disc on her back for several minutes. I repeated the process on three separate occasions over a few months. Her owner says she notices a huge improvement in her dog. I definitely notice the difference, since she used to always bark at me, and now she runs up to me and lays on her back by my feet to be petted." - Velvet C., RN
