The Sirius Sports Pouch can be used for all sports related activities.

- Yoga
- Martial Arts
- Runners
- Swimming
- Dancing
- Working out
- Hiking
- Bike riding
- Any activity that requires balance, coordination, endurance, strength or patience

## How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint™ has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person wears a ZeroPoint™ Sirius Sports Pouch, their body begins to 'resonate with the frequencies' that are in the Pouch. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Sirius Sports Pouch, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

## Gas Discharge Visualization (GDV) Camera Images

### Energy Field Scan

Without ZeroPoint™ Sirius Sports Pouch

Symmetry 89%

With ZeroPoint™ Sirius Sports Pouch

Symmetry 91%

This scan shows the emotional energy in the biofield. Symmetry is between the left and right sides of the body and is important for healthy function. Note the improved symmetry after using ZeroPoint™ Global technology. The gaps or decreased energy relates to organs, glands and other body parts. What we see here is low energy flow increased.

## Testimonials

*"In September of 2013 my 12 year old cockapoo started not wanting to jump up onto my 3 1/2 foot high bed any longer and would sit staring up at it until I noticed her. I would then pick her up and place her on the bed. I also had purchased an SUV in September and she tried to jump up into the back seat (which was considerably higher than my previous sedan) on several occasions and then refused to try any longer. The Sirius Sports Pouch was released in October of 2013 and I immediately bought a 3 pack so I would have one for her and one for me. Within 1-2 days she started jumping up onto the bed again by herself and has been doing so ever since. She is also now able to jump up into the back seat of my SUV from the ground since then as well. Thank you ZeroPoint!" – Carol S., CA*

*"I added the Sirius Sports Pouch to my pocket while shoveling snow, and I found that it helps me feel so much better after shoveling. I no longer have pain or soreness after shoveling. Here in the Chicago area, we had 27 out of 55 days of measurable snow. So, I have used the Sirius Sport Pouch each time I have had to shovel and I am really amazed at how good I feel. Thank you ZeroPoint Global for these Wonderful products!" – Jo Ann T., IN*

*"I have been teaching dance for over 30 years (operated my own studio for 20 years). I now just teach a class once a week with two of my dance students that have been with me for about 15 years. I loaned one of my students (who had been struggling for years with flexibility, strength and being able to "leap tall buildings with a single bound"... LOL) my 3rd Sports Pouch in December asking her to wear it 24/7 as a research project for me. When she came to class the following week she asked if she could buy it from me because she was never going to take it off due to the improvements she was experiencing. She now has full splits on her left side, is almost full on her right side, can hold a balance on the balls of her feet in a "jack-knifed position" while holding her ankles, and her turns have improved tremendously. But the most amazing improvement is in her leaps... for the first time in the 15 years her leaps are high and lifted up, looking effortless, light and airy with almost a full split in the air. She is so very happy! And so am !!!! Thank you ZeroPoint!" – Carol S., CA*

## Research Results

**Case 1:** Fitness Instructor, Female, Age 18

	<b>BEFORE</b> Sirius Sports Pouch	<b>AFTER</b> Sirius Sports Pouch
Date	August 17, 2013	August 19, 2013
Duration	1 Hour	1 Hour
Average Heart Rate	122	141
Max Heart Rate	166	178
Calories Burned	336	428
Notes	<ul style="list-style-type: none"> <li>• Difficulty in balancing</li> <li>• Used 5lb weights or less in exercises</li> <li>• Out of breath often</li> <li>• Knees started to hurt</li> </ul>	<ul style="list-style-type: none"> <li>• Significant increase in balance</li> <li>• Used heavier weights for longer periods of time in specific sets of exercises along with using heavier weights the duration of the hour.</li> <li>• Biceps curled 15lbs for first time in Hot Pilates, then switched to 10lbs which was still heavier than my usual 5 pounds.</li> <li>• My joints felt stronger, especially my knees where I have injuries.</li> <li>• Continued consistent work until the very end of class.</li> </ul>

**Case 2:** Fitness Instructor, Male, Age 68

"When I first put the Sirius Sports Pouch on, I felt a surge of energy. My entire body felt more energized along with a sense of clarity. I understand that you want to quantify the results, so I'll illustrate what's happened with some of the components from my workouts. The following exercises were selected because they used the same weights and equipment with each session."

Equipment Used: Dumbbells (Weight indicates the weight of each dumbbell)

Repetitions: No set number. Done to momentary muscle fatigue.

I did not take off the Sirius Sports Pouch once I started wearing it, and you can see how my workouts improved.
