

PET

The PET is used for EMF protection and pain relief. Pointing at an area of pain will bring in frequencies for relief, pointing away from an area of pain will tend to neutralize incoherent frequencies.

Description

ZeroPoint™ PET is a 2-inch, 3-sided black obsidian pyramid infused with ZeroPoint™ technology found to be balancing to the biofield and calming to the individual.

Benefits

- Reduces effects of harmful EMF/ELF waveforms when placed near electronic pollution. Place in any room in the home, i.e., kitchen, office, bedroom, or any other room that has electronic pollution. It's also great for traveling, i.e., in the car, airplane lap tray, hotel room, etc.

- Biofield Balancing can be accomplished when held with the ZeroPoint™ logo facing down in the palm of the left hand while relaxing or meditating for a few minutes. Some people prefer to use the right hand. This demonstrated a more balanced biofield, chakra alignment and organ, gland and body part balancing in the emotional and physical realms on the Gas Discharge Visualization (GDV) imaging preliminary research.

Some early results have been found with ZeroPoint PET balancing to the following body systems in the emotional and physical realms:

- Cardiovascular
- Blood Sugar
- Blood Pressure

Other early results found with ZeroPoint™ PET balancing to the following energetic/etheric realms are:

- Expansive Grounding Energies
- Feminine/Masculine Energies
- Heart Energies
- Self Activation Energies
- Creative Energies

Comments

Everyone wanted to hold the new ZeroPoint™ PET! They found it to be calming and enhanced meditation experiences. Individuals sensitive to EMF/ELF radiation noticed the absence of disruption to their biofield and nervous system. Highest efficacy with EMF/ELF sensitivity seems to be when the PET is placed in the field of electronic pollution including WiFi, computers, satellite signals, power lines, etc. Early dowsing results showed PET may have a use for detecting high electronic pollution pathways in or around your home.

Suggested Uses

Place in any room in the home, i.e., kitchen, office, bedroom, or any other room that has electronic pollution. It's also great for traveling, i.e., in the car, airplane lap tray, hotel room, etc. It is most effective when placed 5-6 feet away from you.

It can also be used for pain relief by placing the point of the PET directly on the area of pain with the logo side face outward and holding for a minute or so. If relief does not come, then turn it over so that the ZPG logo is against the body and the point is outward away from the area of issue.

How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint™ has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person uses a ZeroPoint™ PET, their body begins to 'resonate with the frequencies' that are in the PET. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the PET, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

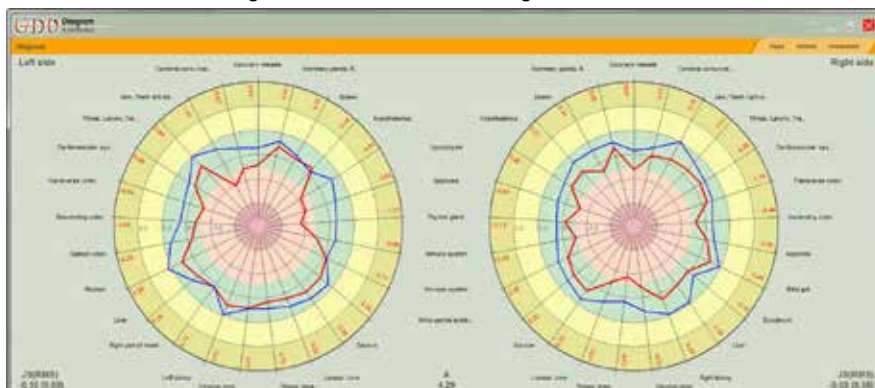

Gas Discharge Visualization (GDV) Camera Images

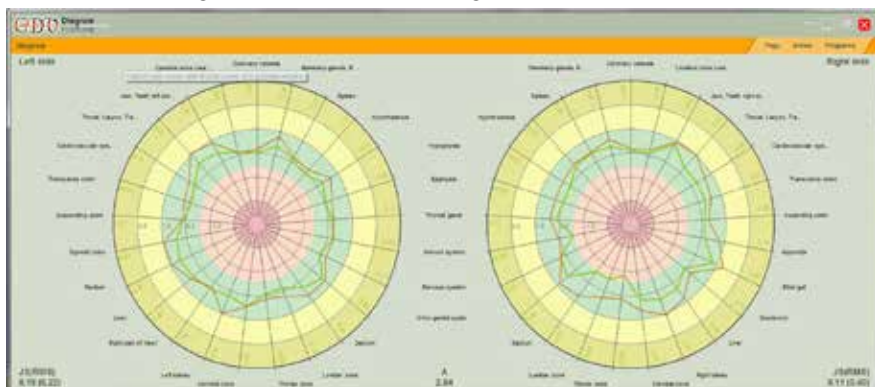

Emotional & Physical Realms Balance

Subject:
Female, Age 59

Before Using ZeroPoint™ PET: Baseline Diagram shows stress is 4.29

After Using ZeroPoint™ PET: Baseline Diagram shows stress is down to 2.84

GDV Diagrams show the balance between Emotional and Physical Realms and overall stress in the body on a scale of 1-10 – with 10 being the highest stress measure. The use of the PET in this research shows how the product changed the stress level in this individual from an above normal level of 4.29 to a normal average level of 2.84, thus reducing stress on the organs and systems and normalizing the space.

Testimonials

"When I am doing a presentation on the phone or in person, I have noticed that when I am holding the PET in my hand, I am not nervous when I am practicing or especially when I am giving my presentation. I have been told that there is a difference in presentation delivery when I am holding the PET as I'm speaking. My presentation is clearer, more understandable, enthusiastic, and conversational. Holding the PET during my presentations has built up my confidence level in so many ways. I have shared this with other speakers as well and the PET has also helped them with their delivery." - Julia A., CA

"For years I had been troubled with buzzing in my ears, eye irritation and frequent earaches due to EMFs and ELF's in my environment (wherever I went) where prescribed medication gave no relief. About one year ago I placed a ZeroPoint Global PET in my office, kitchen and bedroom and even one in our car. Since the PETs have come into my living environment, my ear buzzing has subsided to almost nothing. I have not had an earache for at least six months. In the past, no matter if I traveled by air or car, I would experience earaches and a loud banging in my ears. On my last distant air travel I held the PET in my hand while enjoying the most peaceful trip with no ear problems and did not even experience jet-lag. My husband and I just returned home this morning from a 3000 K (approx. 1800 miles) road trip with two PETs in our car to help take care of environmental smog along the way. I was so happy and experienced such a peaceful quietness that I have never been able to enjoy on past road trips. My ZeroPoint Global PETs have brought quietness and peace into my life relieving me from constant ear problems. Thank you ZeroPoint Global ...you have helped bring back my quality of life!" - Eileen F., BC, Canada
