## How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint™ has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person wears a ZeroPoint™ Basic Pendant, their body begins to 'resonate with the frequencies' that are in the Pendant. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the Pendant, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

This scan shows the emotional energy in the biofield. Symmetry is between the left and right sides of the body and is important for healthy function. Note the improved symmetry after using ZeroPoint™ Global technology. The gaps or decreased energy relates to organs, glands and other body parts. What we see here is low energy flow increased.

## Testimonials

*"I have had fibromyalgia for 6 years. I wore the ZeroPoint Pendant for 2 weeks and did not even realize the pain had gone away until I gave the Pendant to my sister for a week. The fibro pain came back the first morning I was without it. I was amazed!" - Barb S., MN*

*"I have experienced shoulder problems all of my life, as did my sister, father and now my children. There is a small bone that rubs against and irritates our muscles in the shoulder joint that is common to about 12% of all people. I have had cortisone shots and been in and out of physical therapy all my adult life, as I became more active with my shoulder. It had just become a way of life. The irritation of the muscle would cause swelling, and when in motion consequently caused more swelling and finally become immobile, and it was time for some injection relief. A few months after wearing the Pendant 24/7, I realized that I had not experienced the pain in my shoulder for quite a while. It's one of those things that you don't think about unless it is hurting. The only thing different in my life was the introduction of the pendant to my body. It keeps me in balance and lets my body heal the inflammation all by itself. I don't go a day in my life without it around my neck. Looks good too with the woven, leather strap. I dig it." - Ilene G., FL*

*"Our 8 year-old premature son has an underdeveloped bladder, causing periodic bedwetting. The beginning of this year we purchased a ZeroPoint Global Pendant for him. He wears his Pendant of choice day and night. Along with his teacher, we began to notice he was calmer, less distracted and able to focus for longer periods of time. No more bedwetting to date. So encouraging to see him notice the difference." - Kim A., NV*

*"My son gave me a Pendant in April of this year, and I wouldn't take it off. I immediately felt a sense of strength. I had cramps in my feet for many years and would wake up in the night with charley horses and would hop around the room trying to release them. They have completely stopped since the day I put on the Pendant. Thank-you Zeropoint!" - Katherine P., MI*

*"My daughter tends to day dream a lot in school. Since wearing the Pendant she and her teachers have reported a marked improvement in her grades and study habits ever since!" - Susan H., FL*
