

# Live Blood Microscopy: Sirius Silver

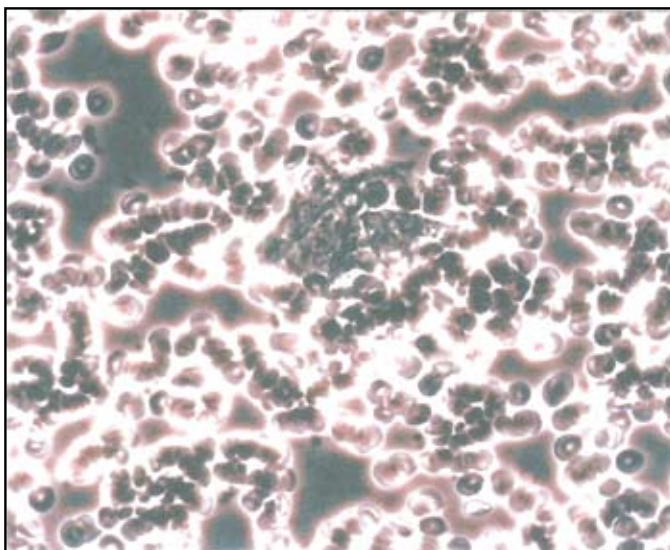

## Research and Development Notes

ZeroPoint™ Global selects the best available raw materials to deliver our technology and Sirius Silver is no exception. You'll see from the images below why this product was selected to become part of the ZeroPoint™ Global family. The coherency shown after silver is clear and indicates healthier blood. It is an exceptional silver product that was chosen to carry the exclusive ZeroPoint™ technology, with blueprint frequencies. Subjects' identification is withheld at their request. Before and after test results shown are from different people taking one dose of silver in varying amounts during testing.

## Subject

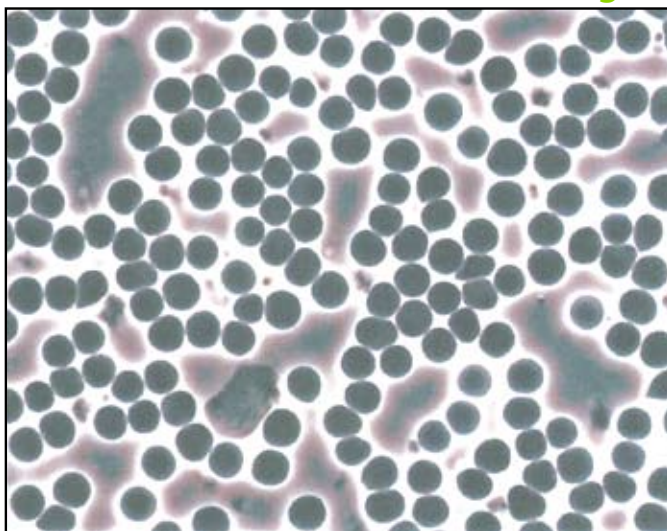

- 48 year male: 200 lbs.
- Blood clumping due to a very acidic condition
- Parasites and Candida are prevalent
- This blood is anemic and shows signs of dehydration

### Before: This Kind of Blood is Unhealthy

In the middle, we see an abnormal cell cluster, which could be the beginning of a cyst or tumor.

### After: This Kind of Blood is Healing

This unique silver solution carries a strong negative ionic charge that causes the clumped cells to separate which allows more oxygen between cells to achieve optimum cell function.

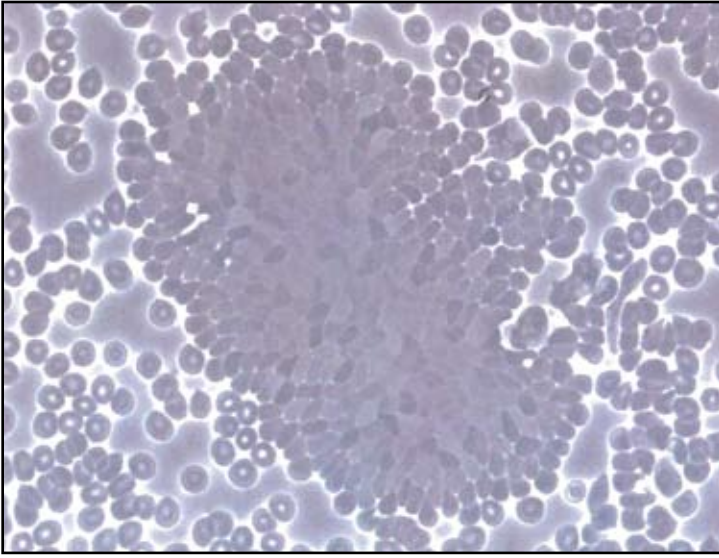

This person took 1/4 oz. of Sirius Silver under his tongue for 1 minute. We retested his blood immediately. Here are the results of the changes in his blood. Here we have a beautiful environment that shows an alkaline state where good health and healing can take place.

**THIS CHANGE TOOK PLACE IN JUST ONE MINUTE!**

# Live Blood Microscopy: Sirius Silver

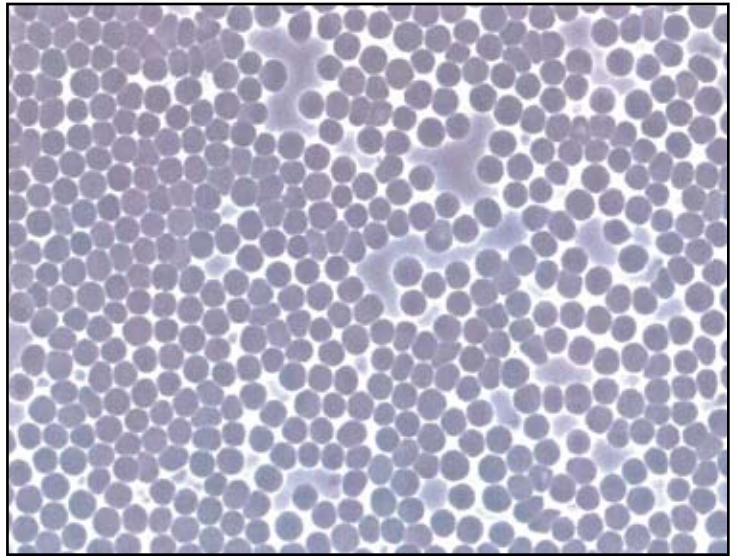

Daily use shows this type of result:

**Before**

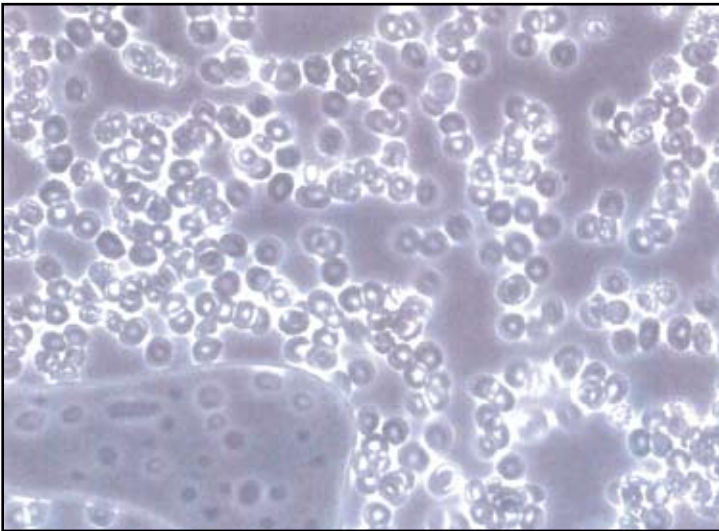

4/15/11 at 9:15am

**After**

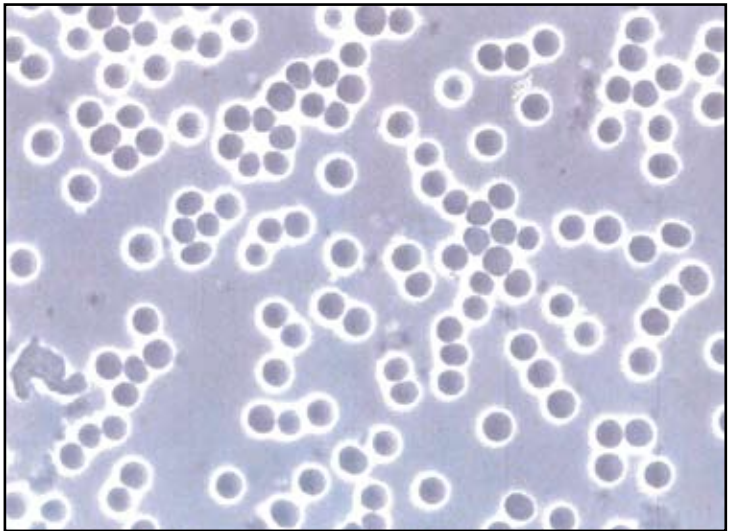

4/15/11 at 9:27am

**Before**

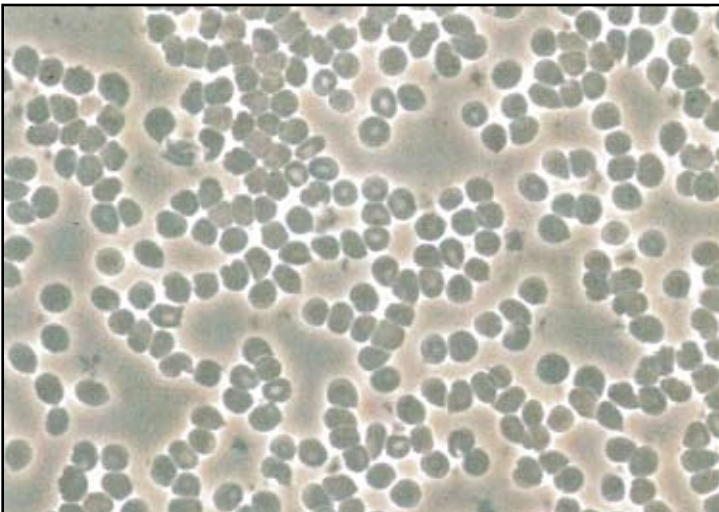

4/29/11 at 8:45am

**After**

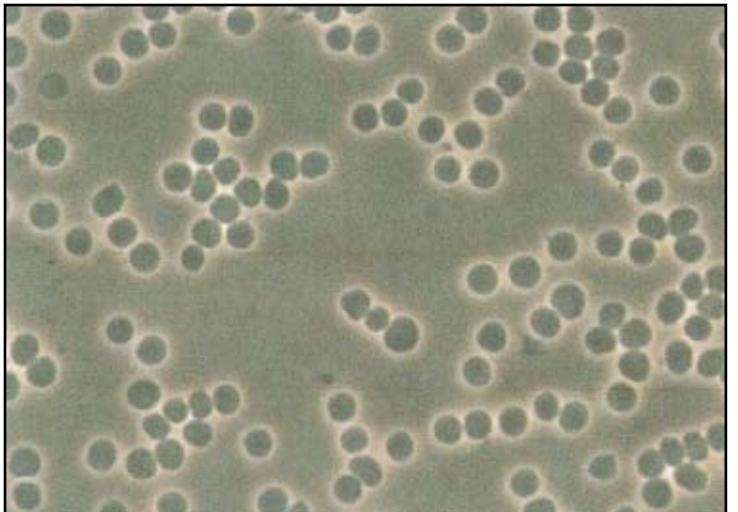

4/29/11 at 8:58am

**Before**

2/7/11 at 8:55am

**After**

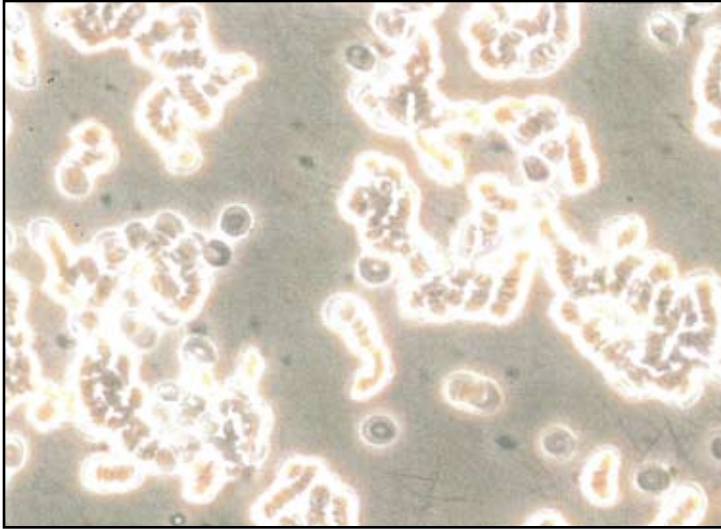

2/14/11 at 11:00am

# Live Blood Microscopy: Sirius Silver

Daily use shows this type of result:

**Before**

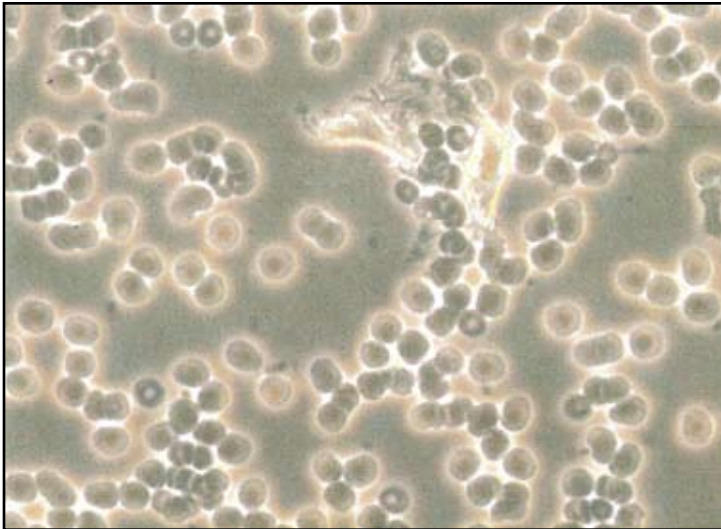

10/8/10 at 8:53am

**After**

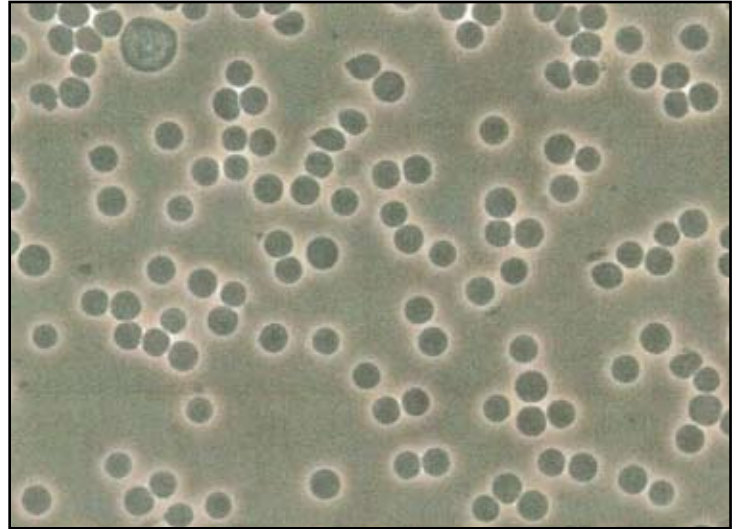

2/10/11 at 3:33am

**Before**

1/10/11 at 9:09am

**After**

4/1/11 at 12:58pm
